

■ FREE GIFT — BUILDER STARTER CHECKLIST ■

From idea to first \$1. 10 steps. No detours.

You don't need an audience, ads, or a website. You need a sequence — and a willingness to ship a flawed v1 today, not a polished v3 next month.

The 10 steps

- 01 Pick a problem you've personally solved twice in the last six months.
- 02 Write the buyer's sentence: "I help X do Y without Z."
- 03 List 25 people who match X. Names, not personas.
- 04 Ask 5 of them what they tried, what failed, what they'd pay for.
- 05 Sketch the deliverable on one page. Set a price ending in 9.
- 06 Send the offer privately to your warmest 3 names. Plain text. No graphic.
- 07 Close the first one. Discount if needed. Get the \$1 in hand.
- 08 Ship the deliverable inside 48 hours. Voice notes count.
- 09 Ask the buyer for a 30-second testimonial. Use their exact words.
- 10 Show the testimonial to the next 22 names. Raise the price 30%.

Why this works

Every step is a forcing function. Step 03 forces specificity. Step 06 forces shipping. Step 09 forces social proof. If a step feels uncomfortable, that is the signal to do it next, not the signal to redesign the checklist.

Common failure modes

Surveying instead of selling — If 5 people say 'great idea' and zero will pre-pay, you have an opinion, not an offer.

Polishing v1 — v1 ships rough. v2 ships polished. v0 never ships.

Talking to strangers first — Warm contacts close. Strangers educate. Educate after you have testimonials.
